ACOUSTIC CONSULTING

Environmental Noise Solutions (ENS) is an independent acoustic consultancy specialising in noise in the built environment.

We undertake projects that encompass small, local development projects and new school developments through to major developments including large residential developments and hotels.

Our consultants all have a broad range of experience, both in the public and private sector, and who all work to our high standards of delivering the best possible service to our clients in a proactive and responsive manner required by the modern, commercial environment we all work in.

Acoustic Consultants (£21-36K + Benefits)

We have a number of vacancies for graduate, newly qualified and experienced acoustic consultants to work within the consultancy division of the company.

The roles will involve, dependent on experience, the measurement of noise and vibration, data analysis, report writing and project management. Areas of work include noise surveys and assessments for commercial and residential development; design of internal building acoustics; general acoustic measurement in the built environment and expert witness representation.

Recent projects include a new theatre project in Hull, student accommodation schemes in Sheffield, Manchester and Birmingham, a Multi-Media venue in Jeddah, HS2 infrastructure.

All candidates will ideally have a degree in acoustics or equivalent qualifications in a scientific/engineering discipline and be computer/technology literate and also have good reasoning and writing skills. All candidates are expected to hold a full UK driving licence or European equivalent.

Salary is competitive and commensurate with experience (range: £21,000-£38,000).

We also offer the following employee benefits:

- Permanent Health Insurance.
- Death in Service Benefit (Life Insurance).
- Non-contributory personal pension plan.
- Paid professional fees (IoA, ANC, etc.)
- 25 days holiday
- Attendance holiday bonus of 3 days per annum.
- Company Vehicle (for site based roles).
- Flexible Home Working.
- Annual Bonus.

We have a relaxed but professional working environment and currently have a team of eight acoustic consultants.

In the first instance, please email a CV (for the attention of Dave Poulton) to:
